Designing your dream kitchen starts here.

DESIGN CONSULTANTS & DISPLAYS IN EVERY STORE

It all starts with you talking to the experienced designers at a Barry's Design and Display centre. And the first thing they'll do, is listen. Listen to your dreams, ideas, thoughts and requirements. Then it all begins with sorting through your ideas, the colours you may be thinking about (and colour combinations you may not have considered), the appliances, the workflows and storage solutions -

and then fine-tuning everything, with your input, into computer generated visualisations of your finished kitchen, right down to the finest details. At Barry's, we are constantly seeking and introducing new kitchen trends, products and ideas, to show you the very latest in innovations as they become available. So before you commit to a new concept,

you'll be able to walk through specially created kitchen displays, open and close cupboard doors, compare one with another and see and choose exactly what your new kitchen will contain, taps, sinks, space-saving bins and baskets, fittings, European appliances, benchtops, cupboards and drawers, colours and textures, you name it. Perfect solutions custom-designed for your needs and lifestyle.

THE BELINOX 900 CANOPY: Stainless steel, 3 speed with lights.

600MM VERSATILE GAS COOK TOP: With wok burner, cast iron trivets.

DESIGN PLUS ELECTRIC OVEN: Large 900mm wide 100 litre capacity. Fan forced. The perfect entertainer's appliance

5 PROGRAM DISHWASHER: Stainless steel. With a 12 settings capacity

THE AQUARIO: A new dimension in living. Multi-function design, the ultimate in food preparation and washing options.

THE PLANAR: The pinnacle in contemporary urban looks. Clean, bold design and very practical. Mixer and accessories available at extra cost.

DOUBLE UNDERSINK WATER FILTER: Long swivel spout for sink or benchtop. Easy to install kit included.
